Costs down – service life up
Cable carrier systems for port cranes

TSUBAKI KABELSCHLEPP develops customized solutions for cable carrier systems in cranes. Our decades of experience from hundreds of realized projects in various industries with diverse demands on our cable carrier systems, leads to new custom and application-specific solutions for our customers. Our specialists will support you from the planning and design stage through to the onsite installation and start-up of the tested complete system.

TOTALTRAX® Complete systems
From planning to the final complete system

Use our know-how. Working jointly with you, our experienced specialists can provide pre-sale support, including planning and design services through after sales service and support.

One order, one contact person, components ideally matched to each other, including the cable and hose carrier, the electrical cables, the hydraulic and pneumatic hoses and the connectors.

You receive the complete system in one delivery along with a guarantee certificate, if desired – in short: TOTALTRAX®.

Reduce your storage costs for cable and hose carriers, cables and connectors with TOTALTRAX®.

We supply all components Just-In-Time to your production facility or directly to the installation site.

Supervised installation service

Let our engineering team provide on site support during the installation of the cable and hose carrier system. We can provide the additional support you might need to insure a flawless installation.

Want us to optimize your operations?
That’s what we do.
