## Cable management for the furniture industry

## Fast, easy and cost-efficient Cable carriers for the furniture industry

TSUBAKI KABELSCHLEPP offers a wide range of standards and develops customized solutions with cable carriers for the furniture industry. Our decades of experience from hundreds of realized projects in various industries with diverse demands on our cable carrier systems, leads to new custom and application-specific solutions for our customers. Our specialists will support you from the planning and design stage through to the onsite installation and start-up of the tested complete system.

## Individual complete solutions From planning to the preassembled system

Use our know-how. On request, we develop, test and produce the desired cable carrier according to your requirements.

Everything from structure, connection options and strain relief to packaging can be defined under one customer-specific material number, making ordering easier for you.

Preassembly and collating of orders allow you to save costs and additionally reduce the required storage space.

Control center

Service counter

Standing/seated workstation

Media boards

Room installation

Kitchen furniture

## Ready-to-install solutions

- Purchasing and handling under one material number, sold as original equipment and as accessories in retrofitting
- No picking of individual parts and simplified logistics through standard packaging
- Kits including fixing material and installation instructions for on-site installation (saves assembly time at the customer site)
